

Is your aircraft interior in the best condition? Is your warranty still valid? Do you need support around the topic of interiors?

Aero-Dienst offers interior consulting and supports you in all questions concerning interiors. Our experienced interior specialists perform cabin surveys, assist with upcoming interior refurbishments, find the optimal materials for your purposes and manage comprehensive interior projects.

Even if you intend to purchase a new aircraft, we can assist you in selecting the best materials for your needs. The key is to find the right balance between appearance and ease of maintenance. This saves follow-up costs and preserves the high-quality appearance of the cabin in the long term.

Our interior consulting services

- Cabin inspections and survey reports with details on damage type and damage repair
- End of cabin warranty inspections incl. preparation of survey report for all warranty-eligible damages
- Material consulting and selection
- New design/redesign of the cabin
- Cabin renderings for visualization of new design ideas
- Advice on possible surface cleaning/long term disinfection
- Acceptance inspection after interior refurbishment
- Acceptance inspection during new aircraft delivery
- Consulting on third party interior offers and obtaining comparative offers
